§ 1.4 Audience & Genre

Adventure dungeon crawler for people who play Zelda.

§ 1.5 Look, Feel, & Tone

Visual style for the game will be comic inspired, where player and non player characters will be cell shaded with a near black outline that follows the geometry. The level will have a low poly visual style somewhat similar to games on the switch/PS2.

Think: HellBoy comics meets BOTW.

Non-Goals

- No multiplayer.
- No buffs (consumables & items).
- No difficulty sliders.
- No multi-platform ports.
- No crafting.
